Speed Data from 7-day Automatic Traffic Counters (ATCs) in December 2025. Two key figures are shown on the map:

- **Average Speed (in mph):** The mean speed of traffic at the specific points, calculated by averaging all recorded vehicle speeds.
- **85th Percentile Speed (in mph):** The speed that 85% of vehicles are travelling at or below – i.e.15% of vehicles exceed this speed.

These figures help determine if a 20mph speed limit is suitable and whether extra measures are needed to self-enforce a lower speed limit.
