The Surrey County Council
Proposed Provision of a Pedex Crossing on A281 Birtley Road, Bramley

Statement of Reasons

The A281 Birtley Road provides a link from Guildford to Horsham, as a result it carries a large volume of vehicles on a daily basis, including heavy goods vehicles. Due to the volume of traffic, opportunities to cross the road are difficult to secure. This is particularly problematic due to the presence of Bramley Infants School on one side of Birtley Road and the associated increased demand for safe crossing over the road. The construction of a Pedex crossing on the A281 Birtley Road would therefore be highly beneficial for the safety of the students of Bramley Infants School, their families, as well as the wider community.
