Your Feedback:

"Bring in more vibrant buildings; there is nothing at night; St Martin's square isn't well used or managed"

"No community spaces and vacant units are underutilised"

"Bigger venue to rival Cliffs Pavilion"

"Craft shops; more spaces for creative activities e.g. community art "

"Night life lacking; bars, restaurants, clubs, bigger venue and better quality and variety of retail offer"

"Children's nursery, soft play?"

"Make Gloucester Park more accessible; outdoor exercise and play equipment"

"Link green edges to park - increase biodiversity"

"Small pocket parks; some play - there is no playground in the town centre"

"Cycling and walking routes that connect the town to the countryside and parks"

"Public toilets needed!"

"More cycle storage and safer routes"

"New homes have to come with services (schools, doctors) and public transport"

"Better lighting for safety"

"Green, walkable, low rise, doorstep amenities"

"Courtyard housing would be nice - somewhere private to relax outside."

How we're implementing your feedback

An improved Fodderwick, with new housing and commercial uses at street level. An improved pedestrian route, that is safer and more active, with lighting, new planting, and seating

Exploring ideas for potential new culture and leisure facilities, as well as a new Hotel with rooftop bar next to St Martin's Square

New Green Square at the heart of the masterplan, with new green routes and biodiverse spaces between buildings

Making town centre more connected and pedestrian and cycle friendly, with generous, well lit and accessible routes and squares

Variety of homes including older adults, families and affordable
