Dear resident

Water hygiene works – taking place on Tuesday 14 April

We will be carrying out remedial works to the cold-water storage tanks at Kenley on **Tuesday 14 April, between 9am and 5pm,** on behalf of Haringey Council.

The works will take place in communal areas only and access to homes is not required.

Please note that the water supply will be disrupted during this time. If a longer interruption is required, residents will be informed in advance.

Important information for residents

- Please do not use your water while these works are taking place
- Do not turn on your taps during this time, and do not leave plugs in sinks or hand basins. This is to prevent flooding in case taps are left running when the water supply is restored - particularly if you are not at home.
- Please fill kettles, saucepans, and/or buckets in advance so that you have water available for drinking, cooking, and flushing toilets.

Bottled drinking water will be available from our technicians if required.
All technicians will be in uniform and carry ID badges.

If you have any questions or require further information, please do not hesitate to contact us on **01268 282 700**.

Yours faithfully

Kirsty Petty
Operations Regional Manager
