## RE: Hammond Court Reconstruction

Dear Resident/Property Owner,

Please be advised that on May 27<sup>th</sup>, 2024, the Town of Deep River awarded the contract for the Reconstruction of Hammond Court to McCrea Excavating Inc. The project is scheduled to begin construction in mid July 2024 and is anticipated to be completed by the end of August 2024.

The project works will include grading, granular base, hot mix paving, sanitary sewers, drywell installation, drainage improvements, landscaping, and site restoration. The roadway may be closed however, a minimum of 1 lane will remain open for access for local and emergency vehicles. There will be periods (typically 24 hours or less) when access to your driveway will be restricted (asphalt driveway paving, new pipeline installation, etc.), however, the contractor will provide you with as much notification as possible.

**Properties located in close proximity to the limits of construction will be receiving a letter/notification from Blastek Engineering Group, on behalf of McCrea Excavating Inc. requesting authorization to complete a pre-construction inspection of their private property.** Property owners are encouraged to schedule this free inspection prior to the start of construction, and should be advised that these inspections will only be performed at the discretion of individual property owners or their representatives. This inspection is completed to provide a baseline of the condition of the house prior to the commencement

of construction. It would only be referred to should a resident feel that damage was done to their house as a result of the construction activity.

Please be advised that the engineering firm of Jp2g Consultants Inc. has been retained to complete the contract and field administration services required by this project. **We encourage residents or property owners to contact Brandon Harkins from Jp2g Consultants Inc. at 613-735-2507 or by email [brandonh@jp2g.com](mailto:brandonh@jp2g.com) should you have any questions or concerns relating to this project during the course of construction.**

We appreciate your patience and cooperation throughout the construction project.

Respectfully,

*Dave McCarthy*
