St PETER'S RC PRIMARY SCHOOL COMMUNITY NEWSLETTER

St Peter's RC Primary School | November 2026

Upcoming Activities
Customer: Hub North Scotland / Aberdeen City Council

With the Main Contract Works to the new St Peter's RC Primary School now fully underway as of 5th October 2026, we want to keep you informed about our progress and what we will be doing in the upcoming periods ahead as we work towards a completion date late 2027.

The Main Works commenced on 5th October 2026 and followed on from the Advance Works phase which included the following operations:

- Internal soft strip to the existing Old Aberdeen House Building.
- Rot and Damp repair works to Old Aberdeen House Building.
- Tanking Works to Basement of Old Aberdeen House Building.
- Plywood overlay to existing floors of Old Aberdeen House Building.

CONSIDERATE CONSTRUCTORS PARTNER

- External granite cleaning and repointing to Old Aberdeen House.
- Extensive roof repair works to Old Aberdeen House.
- Demolition of the old St Peters RC Primary School and Janitors House buildings.
- Rebuilding of the boundary wall following demolition and removal of Janitors House.
- Section 56 Works to King Street forming temporary exit route off site for the construction phase only.

Following the commencing of the Main Contract Phase of works we at Robertson Construction are immensely proud to continue to work closely with and supporting both Hub North Scotland and Aberdeen City Council to be able to deliver another high-quality education facility for the St Peter's Community.

What to expect on site in the coming months – October 2026 to December 2026

- Ground Works and Drainage Works to the new link extension.
- Removal and replacement of Windows to Old Aberdeen House.
- Excavation of pad foundations and pouring of concrete foundations to new link extension.
- Surface and Foul Drainage installation.
- Erection of Structural Steel Frame to new link extension.
- Formation of new lift shaft and base.
- Removal existing stairs and reinstatement of new internal stairs to Old Aberdeen House.

Community Liaison

Our Social Impact Manager along with the St Peters RC Primary School delivery team will be engaging with residents and the local community. We work hard to leave a lasting impact within the communities where we operate. Our social impact delivery plans to support job opportunities, skills development, apprenticeships, volunteering hours, donations and more.

Our social impact manager will work closely with local schools, colleges and universities to provide in school upskilling sessions, construction taster days, work experience placements and site visits for students to learn about construction and support apprentices. These sessions aim to foster an interest in the industry and provide a route into future work opportunities.

We will also continue to work with the local job centre and ABZ Works to identify job opportunities on the project and provide general employability support to local employability providers. We are working with students from St Peters and representatives from the Aberdeen Council of Voluntary Organisations to direct our volunteering and charity support efforts to ensure we are responding local needs. A community notice board will be erected on the site hoarding providing updates and opportunities to get involved in the project. Below are some statistics of what we have achieved so far.

9 School Engagement Sessions incld. Site visits, STEM workshops, career awareness and apprenticeship talks.	**450** Pupils engaged in sessions and workshops.	**1** College and university Workshops, sessions or site visits.	**5** Work Experience Placements.	**3** New Jobs and Apprentices.
10 Employability sessions, incld. CV and interview preparation, employer expectations and mock interviews.	**63** Employability Session Participants.	**£1,386** Monetary or in-kind donations to local initiatives and charities.	**97** Volunteering hours to support local projects and charities.	The first considerate constructor scheme site assessment will take place in the first half of 2027.

Should you require any further information on the project, please contact 210165.stpeters@robertson.co.uk.
