HELP SHAPE CHANGES TO CHASE LANE PARK

We plan to create a green, active and more inclusive park for everyone and we need your help to achieve that.

Local areas thrive when shaped by the communites who know them best, so your feedback is essential to design a park that everyone can enjoy.

PROJECT BACKGROUND

In March 2023, we secured £8.4m from the UK Government's Levelling Up Fund to support the delivery of the projects identified in the Chingford Mount Framework and 'Child Friendly Chingford' project. As part of the Levelling Up funding, we are delivering improvements in Chase Lane Park, as well as Memorial Park and Rolls Park The funding will enable Chase Lane Park to realise its full potential as a distinctive, enjoyable, safe destination for play and to spend time outdoors.

Our plans

The plans include changes to these key areas of the park

1. Multi-use games activity
2. New Skate Park
3. Scooter Play
4. Outdoor Gym Extension
5. Improved Play Area
6. Improved Entrance

Project timeline ENGAGEMENT

MAR 23	JUL 23	OCT 23	MAY 24	JUL 24
Funding awarded	Initial Consultation to review scope of project	On-site event with Everyone on Boards	Consultation with local schools and various stakeholder groups	Design consultation with appointed consultants

CHASE LANE PARK

Co-Design Sessions

In partnership with local schools, the Council held design workshops with Chingford Foundation School, Heathcote School and Chase Lane Primary School. The workshops included rating the existing equipment and feeding back on design proposals for the new layout with designers.

Play area feedback

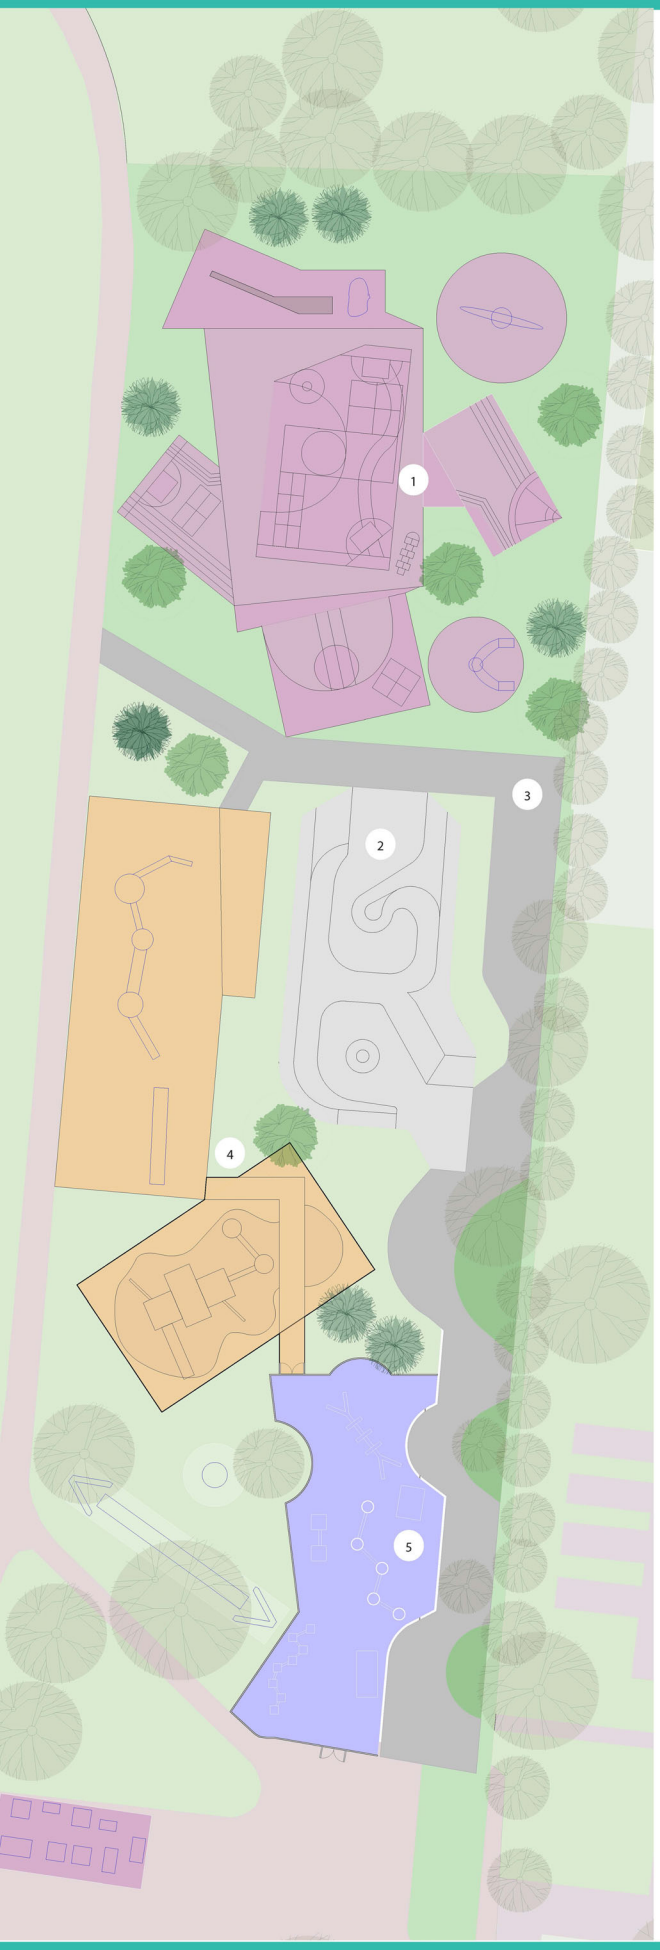

Feedback from workshops told us that each area of the park needs to be more accessible and provide something for all ages:

- **For children under five, you told us there needs to be a focus on engaging play equipment with a safe enclosed area with places for parents and carers to sit and talk.**
- **For older children ages 5-11years, that we need to create an engaging play space that provide beginner access to skate facilities**
- **For teenagers, dynamic social spaces and opportunities for skating and BMX.**

CHASE LANE PARK - CONCEPT DESIGN

1 - Multi-Use Games Area (MUGA)

MUGA edges can be versatile and offer slopes, resting points and openings to allow for different uses to happen all at once.

2 - Skatepark

Inclusive, all ages skate board and wheeled sports area. The skate park offers a raised edge for more informal wheeled sports and hang out spaces

3 - Footpaths

The new playground will offer a main accessible pathway, wide enough to welcome everyone through the different spaces

4 - Adventure Area

This area will offer appropriate play features including changes in levels, swings, slides and climbable features.

5 - Child Area

Engaging play features for children under 5 years within a safe enclosed area, with places for carers to sit and talk.
