2 LEYTONSTONE TOWN CENTRE FRAMEWORK

Phase 1 engagement response

We held our first phase of public engagement in November 2021 where we asked people to tell us their priorities for future investment, development and regeneration in Leytonstone. This included two in-person drop in engagement events and an online consultation platform to help gather feedback.

Phase 1 engagement Dates

Thurs 22 Nov 2021
to
Friday 14 Jan 2022

Responses collected

Feedback on Area Framework Phase 1

We asked residents to provide their feedback on five topics and the 324 responses were distributed as follows:

- 1. THE TOWN CENTRE TODAY — 127
- 2. PLACEMAKING PRINCIPLES — 37
- 3. LONG-TERM VISION — 89
- 4. PUBLIC REALM VISION — 53
- 4. DELIVERED PROJECTS — 18

Comments that recieved the most support

'Leytonstone is dominated by the car, which has a knock on effect on retail in the area [...] it is not a pleasant High Street to walk down because of the traffic'

'Affordability is key, changes should not push out existing residents'

'Prioritise climate resilience, flood mitigation and air pollution mitigation'

'We must prioritise promotion of the arts in Leytonstone Town Centre'

'Ensuring that we create a better connection across the Green Man Roundabout is central - the current layout and general state prioritises the car over wildlife, pedestrian and cycling safety. The area is unsafe, blighted with litter and disconnects Wanstead and Leyton.'

'I can't see how the development of a tower block could possibly ever enhance the setting of a listed building or support the existing character of the town centre'

'I love the idea of more parklets!'

'We need more safe walking, cycling and green routes in Leytonstone'
