

RESURFACING Western Ave

The City of Muskegon plans to resurface Western Avenue this fall, starting mid-September. The project covers Western Avenue from 8th Street to at least 4th Street, with bidding underway for the entire stretch from 8th to Terrace Avenue. Stay informed during the project using the Connect Muskegon page below.

To keep you informed and answer questions about traffic, schedule, and access during construction, we're hosting two informational sessions for downtown residents and businesses.

This is a straightforward resurfacing project—no changes to road layout—designed to minimize disruption. Your input and questions are welcome!
