Archway Project – Haringey Council

Dear Resident,

We are delighted to have been appointed as the contractor for the works at Archway on behalf of Haringey Council. The development will deliver 16 high-quality council homes across a four-storey apartment building and two two-storey houses. This forms ongoing investment in the area.

Alexander James Contracts Ltd has extensive experience delivering similar schemes across London and the surrounding areas, including projects on constrained sites where neighbouring properties and residents are in proximity. We understand the importance of maintaining positive relationships with the local community throughout the construction process.

We have successfully completed several similar projects for Haringey Council, where we worked closely with residents and stakeholders to minimise disruption whilst delivering high-quality results. Whilst some level of disturbance is unfortunately unavoidable during construction works, we are fully committed to reducing inconvenience wherever possible and maintaining clear communication throughout the project.

Once the construction works commence, there may be times when surrounding areas will need to be kept clear to allow works to be carried out safely and efficiently. Appropriate signage and safety measures will be put in place, and we will provide advance notice wherever possible should any temporary restrictions affect access arrangements.

We will also take all reasonable steps to minimise noise and disruption during the works. As part of our site setup, we will ensure the site is safely secured and managed in accordance with all relevant health and safety requirements.

Should you have any questions, concerns, or require any further information at any stage of the works, please do not hesitate to contact us directly.

We look forward to working positively within the community and thank you in advance for your patience and cooperation throughout the project.

Kind regards,
Tom Barker
Contracts Manager
