Craven Way route

Ring Road Path
(part of National Cycle Network)

National Cycle Network

WARMLEY HILL

A420

Grimsbury Road

High Street

WARMLEY

KINGSWOOD

Proposed new signs
to clearly mark the route.

Proposed lighting
improvements.

A4174
Ring Road

Proposed removal of two parking spaces on Lacock Drive to provide a proposed priority crossing point for people walking, cycling and wheeling along the Ring Road Path.

Proposed widening and resurfacing of the Ring Road Path on localised sections of the current route to ensure a 3m path width where possible.

Tower Road North

Court Road

Proposed new signs
to clearly mark the route.

Cock Road

20mph speed limit extended along this section of Craven Way (currently 30mph).

Tower Lane

Howes Close

Mount Hill Road

Proposed new zebra crossing to improve connectivity with the Ring Road Path.

Wraxall Way

Tower Road South

Proposed upgrades to existing crossing to provide dedicated sections on the crossing for cyclists and pedestrians.

Fountains Drive

Proposed new zebra crossing in place of existing crossing point.

Cadbury Heath Road

Mill Lane

Existing barriers to be removed and replaced with a new single bollard to improve accessibility.

Proposed improvements to enhance the safety of cyclists along Craven Way by supporting lower motor vehicle speeds:

- Raised crossing points for pedestrians at junctions
- Retention of existing speed tables and crossings.

Craven Way

HANHAM

Parkwall Road

CADBURY HEATH

Existing barriers to be removed and replaced with new single bollard to improve accessibility.

Marsham Way

BARRS COURT

A4174
Ring Road

LONGWELL
GREEN

Stonehill

Aldermoor Way

Proposed new traffic signal controlled junction to replace existing mini roundabout - allowing cyclists and pedestrians to cross safely.

Stonehill

Proposed new signs
to clearly mark the route.

Proposed changes to existing staggered crossing to a straight across crossing with a dedicated section for cyclists on Marsham Way.

A431
