Re: Approval of Technical Changes to Delineation of Protection Area, Casper Aquifer Protection Plan

Dear Susan:

I have reviewed technical changes to Chapter 3 "Delineation of the Casper Aquifer Protection Area" as documented in the 2008 update of the Casper Aquifer Protection Plan (Version 3.0) dated May 2008 prepared by Wittman Hydro Planning Associates. It is my professional opinion that the technical changes within this chapter and changes to the boundaries of the Casper Aquifer Protection Area (CAPA) reflect the best available technical information on the Casper Aquifer.

As a Wyoming licensed professional geologist, I approve of the technical changes in Chapter 3 and changes to the delineation boundaries of the CAPA.

Respectfully Submitted,

Chris Moody
