

IMPORTANT NOTICE

Dear Residents and Abutters:

The Town of Nantucket, MA contracted the services of N & M Excavating to replace sewer and water mains in the vicinity. The under-ground work was completed earlier this year. Final paving is the only remaining item and N & M Excavating has subcontracted Victor-Brandon Corporation to perform this resurfacing.

This street will be cold planed (i.e. shave off 1-2 inches of asphalt) and overlaid (i.e. apply 1-2 inches of fresh asphalt). Each procedure takes 1 to 2 days to complete and the street will be closed during working hours. Vehicular access to your property will be restricted during the workday, but you will be able to drive on the street overnight.

The cold planing is expected to start the week of September 23rd 2024.

The work is part of ongoing efforts by the Town to improve the sewer and water system infrastructure.

Please note that during the construction period there will be parking restrictions within the work areas. The Police Department has been notified of the construction work in the area and the crews will do their best to assist with maintaining access to your property.

If you have any questions or concerns regarding this project; please contact N&M - Robert Murray at (774) 801-8478

Thank you for your cooperation.
