2018 Safe Routes to School (SRTS) Project Rosedale Road (County Route 604) & General Johnson Drive Intersection and Pathway Improvements Municipality of Princeton, Mercer County, NJ

Preliminary Engineering (PE) Phase
NJDOT Local Aid Design Assistance

Supplemental Project Summary for In-Person Public Information Center (PIC)
Tuesday, April 19, 2022 – 6:00PM to 8:00PM

Meeting Format

- The In-Person Public Information Center will be an Open House format with attendees attending at a time convenient for them during the 2 hour Open House to review project plans, ask questions and provide comments to representatives from the Municipality of Princeton, Mercer County and NV5 (Design Consultant for Municipality of Princeton).
- The public may submit comments and questions until May 3, 2022 to:

Deanna Stockton, P.E., C.M.E.

Municipal Engineer / Deputy Administrator

Department of Engineering and Infrastructure Operations

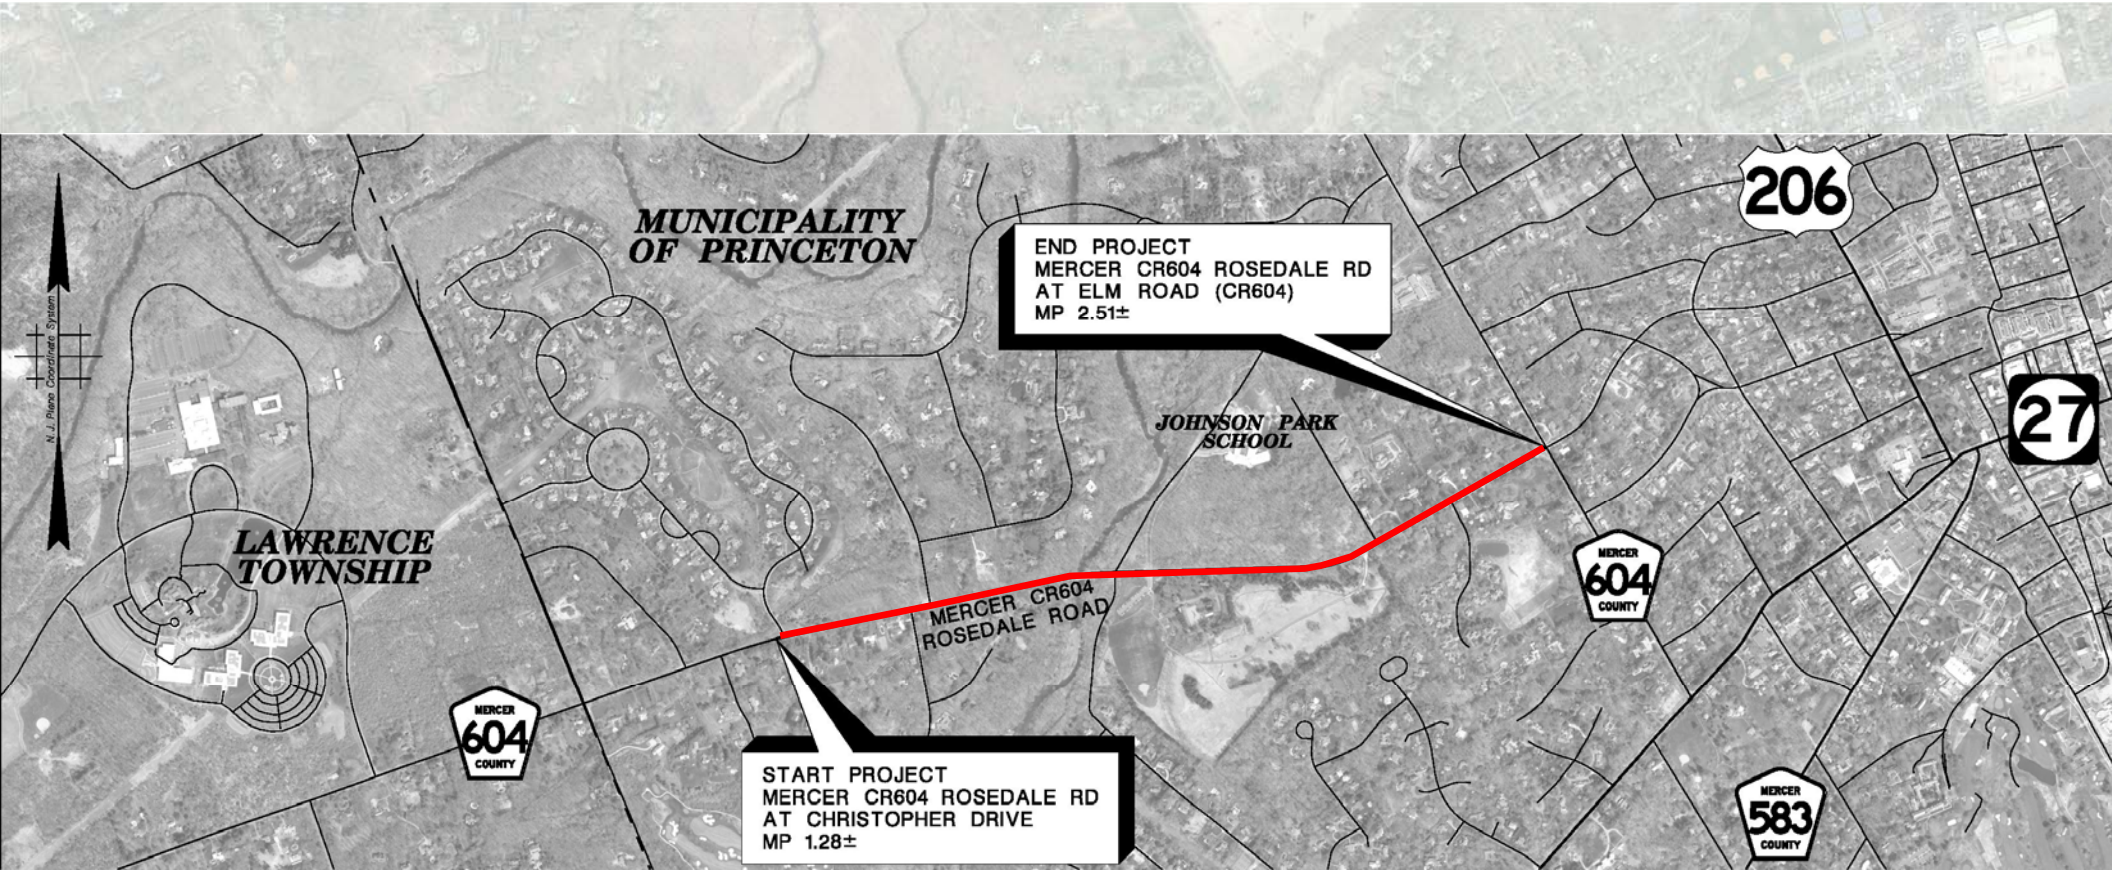

Municipality of Princeton

400 Witherspoon Street, Princeton, New Jersey 08540

P: 609-921-7077 • E: engineering@princetonnj.gov

Project Purpose & Background

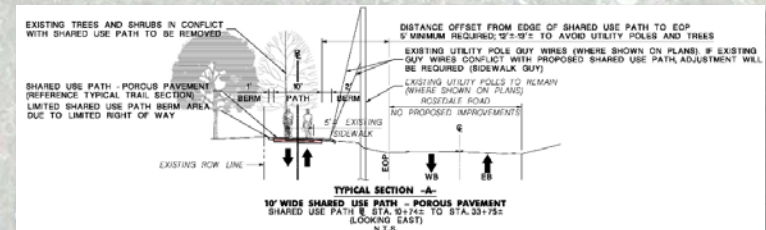

- The purpose of this project is to provide safe pedestrian and bicycle passage across Rosedale Road at the intersection of Rosedale Road & General Johnson Drive and improve access and safety for students walking or biking to Johnson Park Elementary School.
- The project's Design and Construction cost is funded by federal funds administered through NJDOT Local Aid Transportation Alternatives (TA) Program and Design Assistance.

Project Location / Limits

SRTS Proposed Improvements

- Installation of an 8' wide to 10' wide shared use path to replace the existing asphalt sidepath on the north side of Rosedale Road
- Installation of 5' wide concrete sidewalk along portions of the south side of Rosedale Road
- Installation of new curb ramps, crosswalks, and driveway aprons

Proposed Improvements by Others

Work separate from the Safe Routes to School project

- Mercer County Rosedale Road (CR 604) Improvements:
 - Installation of a Mini-Roundabout at Intersection of Rosedale Road (CR 604) and General Johnson Road
 - Including improved ADA/Bicycle facilities tying into SRTS improvements
 - Improvements to Rosedale Road (CR 604) signalized intersection with Elm Road (CR 604)
 - Traffic calming measures for Rosedale Road (CR 604), including:
 - Lane Width Reductions to 11 feet
 - Possible Speed Limit Reduction

Environmental Services

- Categorical Exclusion Document (CED) – Prepared by NJDOT
 - Addresses any potential environmental issues
 - Categories to be reviewed by NJDOT Bureau of Environmental Program Resources (BEPR)
 - *Deforestation; Cultural Resources; Ecology, Threatened and Endangered species; Wetlands; Air & Noise; Hazardous; Public Reaction; Socioeconomics; and Environmental Permits*
- Anticipated Permits
 - NJDEP Freshwater Wetlands General Permit 17 (GP17)
 - NJDEP Flood Hazard Area Individual Permit
 - D&R Canal Commission Approval
 - Mercer County Soil Conservation District Certification
 - New Jersey Pollutant Discharge Elimination System (NJPDES) General Permit for Construction Activities
- New Jersey Historic Preservation Office (NJHPO) coordination

Environmental Services

- Cultural Resources:
 - Federal and State regulations pertaining to the protection of cultural resources, referred to, respectively, as the Section 106 and the New Jersey Register of Historic Places Act processes, require that Princeton and NJDOT take into account the effect of proposed projects upon cultural resources eligible to or listed on the New Jersey and National Registers of Historic Places. These processes require coordination between NJDOT and the New Jersey Historic Preservation Office (NJHPO), along with other appropriate consulting and interested parties.
 - While there are no cultural resources that NJHPO has previously identified or recorded within the project area, the eastern end of the Rosedale Road corridor includes a number of properties that are viewed to be potentially eligible or are greater than fifty years old that will require consideration.
 - Noteworthy among these properties are the Comstock House (33 Rosedale Road), 35 Rosedale Road, the Bonner House (36 Rosedale Road), 58 Rosedale Road, Rosedale House (aka the Gummere House; 89 Rosedale Road; along with the formerly associated 16 Rosedale Lane), and 94 Rosedale Road.

Next Steps SRTS Project

- Project Next Steps:
 - Review Comments from Public Information Center
 - Complete PE Plans, Environmental Document [Categorical Exclusion Document (CED)]
 - Finalize Preliminary Engineering Phase
- Anticipated Project Schedule SRTS Improvements:
 - Preliminary Engineering Phase Completion: Fall 2022
 - Final Design Phase Completion: 2023
 - Anticipated Construction Start: 2023 - 2024

Questions & Comments

To submit questions & comments after the meeting, please
