Works Update

We have been making good progress since our last newsletter with the following activities either underway or completed:

- Works are continuing for bitumen waterproofing of the south link roof, annexe building roof and Civic Centre roof
- On the annexe roof, the rectangular and steel hollow section columns have been erected. The annexe and Civic Centre lift shafts are being prepared for lift installation with steelwork being erected in the Civic Centre lifts
- Window panels and rainwater pipes have been installed in the annexe building up to the roof

Annexe Windows, SFS and waterproofing

Civic Centre Level 4 roof, hot melt waterproofing

Works Update (continued)

Above: Brickwork on the kidney bean at Civic Roof has been completed

Above: Installation of HVAC Ductwork in Civic Centre Building

- heating, ventilation and air conditioning duct work (HVAC) has started within the Civic Centre building
- Steel Framing System (SFS) installation is complete on the Civic Centre level 3, frames and brackets for the window installation is underway
- Brickwork installation continues to progress on the roof, alongside the construction of block and concrete upstands on the link roof
- The brickwork to the kidney bean shaped structure on the roof which houses part of the lift functions has been completed
- Dry lined walls installation in the annexe building is underway
- Stormwater pipes installation has started in the annexe

Above: Upstands poured and blockwork started on the West Link Roof Level 2

Upcoming works

The following works will be happening at the Civic Centre site through March and April

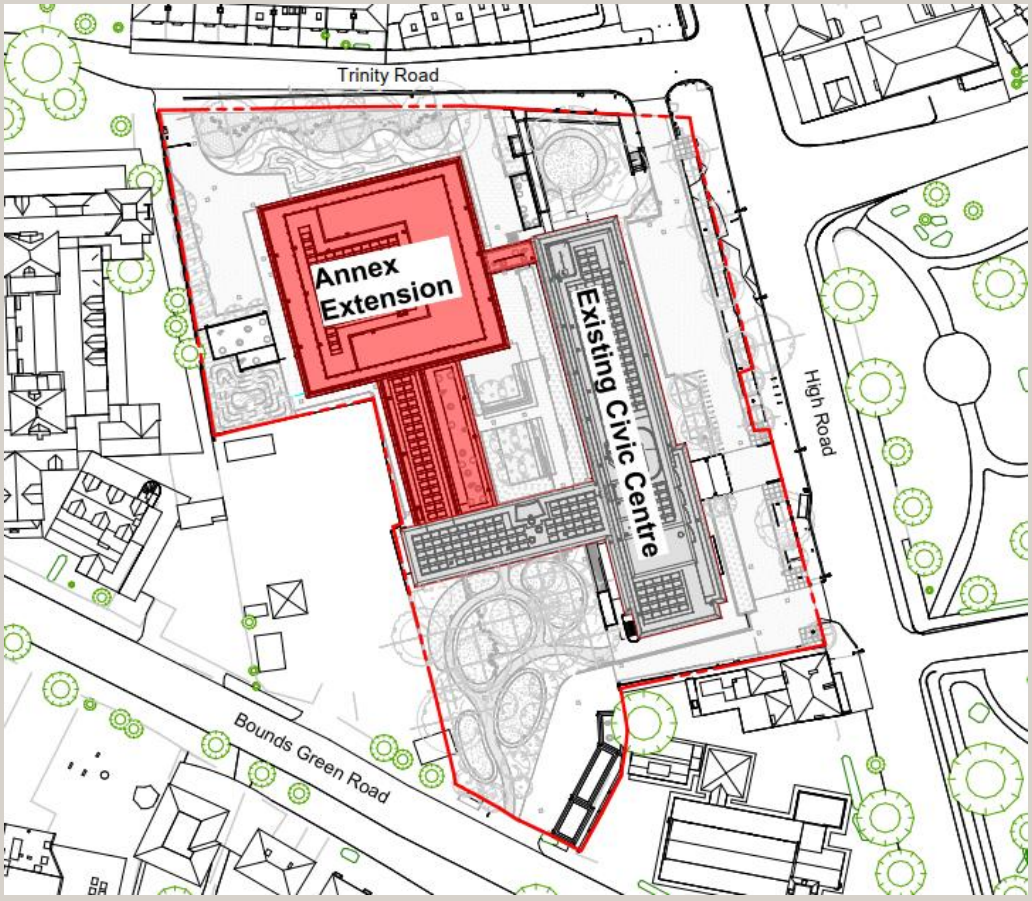

Some of the works will be visible from the streets around the Civic Centre but the majority of works will be internal.

ANNEXE

- Steel framing system (SFS) facade works will continue
- The window frames and brackets will continue to be installed on all floors
- The lift shaft installation will get underway

EXISTING CIVIC CENTRE BUILDING

- New drainage runs are continuing to be installed around the existing Civic Centre
- Brickwork and SFS installation to be completed on new upstands
- Electrical and plumbing works will continue on all levels
- Dry lined wall installation will continue in the Civic Centre

Community Liaison and Social Value

February marked the most significant milestone to date with the topping out ceremony celebrating the construction works reaching their highest point. The Sisk Team were joined by Haringey Councillors and officers for the traditional activities.

Leader of Haringey Council, Cllr Peray Ahmet and Mayor of Haringey, Cllr Ahmed Mahbub welcomed two apprentices from the borough to join in with the ceremonial laying of concrete.

Open Doors 2026

If you are interested in understanding more about construction and taking a tour of the Civic Centre site, then on **March 24th** and **27th** Sisk will be participating in the Open Doors Programme.

Interest has been strong but there are a couple of spaces available.

You can register to join us for one of these dates at **www.opendoors.construction**

Keep an eye on the Haringey Works pages for all the upcoming employment opportunities with us at **(https://works.haringey.gov.uk)**

We have been capturing time lapse videos of the project progression which you can see every month through the Haringey Civic Centre website or through scanning the QR code below

Site working hours: 8am to 6pm on Monday - Friday
8am to 1pm on Saturday
