Haringey LONDON

Date: 11 June 2025
Our ref: UK Power Networks works

Dear Resident,

Notification of upcoming UK Power Networks (UKPN) works on 17-18 June

I am writing to let you know that UK Power Networks (UKPN) has advised Haringey Council that it is planning to undertake work relating to power supply to the 100 Woodside Avenue site on 17-18 June along the Parkland Walk.

These works by UKPN are part of the construction work for the 32 new, high-quality council homes that are being built at 100 Woodside Avenue as part of Haringey's ambitious council house building programme.

We understand that, as part of these works, UKPN will be laying a connection to the site, along the Parkland Walk and crossing under the footpath in at entrance to the path to the eight terraced houses. UKPN expects the work take 2 days to complete and will be working onsite from 8am to 6pm, with the work on the section crossing the entrance to the terraced homes' path being carried on Tuesday 17 June.

There will likely to be some noise caused by the works, especially for residents at 116 and 114 Woodside Avenue. However, council officers are requiring UKPN to carry-out their planned works in a way that will minimise any disruption to all residents of 102-116 Woodside Avenue.

UKPN will maintain continued pedestrian access to and from Muswell Hill Road, via the footpath, for all the residents of the terraced houses. We have been advised that UKPN will carry out this work in two sections, to ensure your access is maintained throughout the works. The Parkland Walk will also remain open throughout.

For health and safety reasons, there will always be pedestrian barriers around the work areas. During the work, access to the bin area will be temporarily reduced but will be full reinstated each evening.

During the work, if you have any issues, please contact Formation Design and Build Ltd's site manager, Ashraf Khan, 07525 489101.

We do appreciate that this may cause some inconvenience, but we do appreciate your understanding and cooperation whilst this essential work takes place.

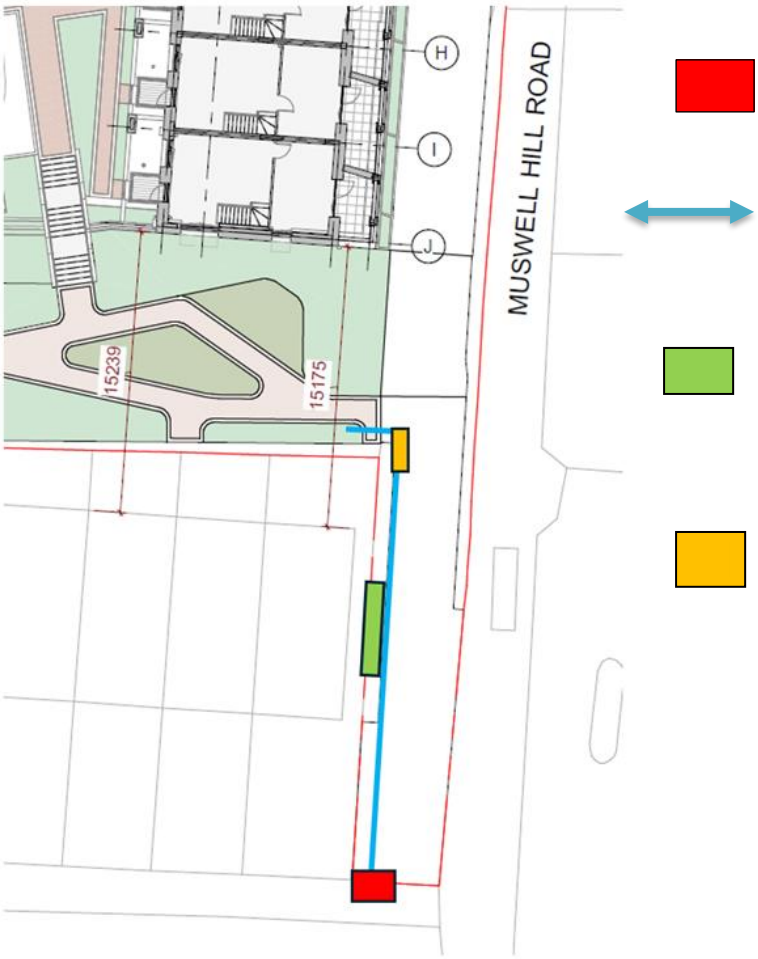

Yours faithfully,

Barry Macleod-Cullinane
Engagement Officer

Haringey Council, Level 5, Alexandra House,
10 Station Road, Wood Green, London, N22 7TR

Calls answered 10am-4pm Monday to Friday, except on Bank Holidays

Installation of electrical infrastructure

Point of connection.

Infrastructure to be installed from 17-18 June.

Access to some of the bin area will be maintained throughout the work, and access will be fully reinstated every evening.

Duct run crossing the entrance to the access path to 102-116 Woodside Avenue. The work will be completed in two sections to ensure access is maintained at all times.
