Dear Local Resident,

As you may be aware we are building 3 new council homes on behalf of Haringey Council. With summer now approaching and the longer days providing favourable conditions for construction, works on site have continued to progress well throughout the past month.

Residents will have noticed further significant changes across the development, with the building now reaching another important stage in its construction.

A key milestone has been achieved with the successful completion of the roof structure. The installation of the roof trusses has now been finalised, marking a major step forward in the project and allowing the full shape and scale of the building to be clearly seen for the first time. This achievement keeps the development firmly on programme and brings us closer to completing the external structure. Over the coming weeks, works will focus on progressing the roof build-up and external envelope, alongside continuing internal structural and infrastructure activities across the site.

Site working hours Monday to Friday 8am to 1pm, and if required Saturday 8am to 1pm.

We would like to thank residents for their continued patience and understanding while works progress. We remain committed to keeping the community informed with regular updates as the development moves forward.

You can find out more about the new homes being built at Grasmere Court by visiting https://grasmerecourt.commonplace.is. If you have any queries whatsoever regarding the works or the site, please do not hesitate to contact Vasyl. Alternatively, you can contact our Resident Liaison Officer, Nicola McCalla, on 01268 711117.

Finally, we would like to remind residents that building sites can be dangerous places. We kindly ask for your cooperation in reminding any children in your care of the dangers of playing on construction sites and the importance of keeping well away at all times.

24 Hour Emergency

In the event of an out of hours emergency or if you spot something untoward on site, please telephone 01268 436449 and you will be diverted to a team member who will be able to assist.
