A4174 RING ROAD PROPOSED IMPROVEMENTS

BROMLEY HEATH ROUNDABOUT

These proposals include:

1. A speed reduction for westbound traffic from 50mph to 40mph, west of the roundabout.
2. Widening of existing shared use path west of the Bromley Heath Road.
3. The widening of existing shared use path to segregated 2-way cycleway/footway to the east of Bromley Heath roundabout.
4. An upgrade to the existing toucan crossing, south of Bromley Heath roundabout, connecting the shared use paths on both sides of Bromley Heath Road.
5. Existing path east of Bromley Heath Road to be converted to a shared use path by removing the existing marking that separates pedestrians and cyclists.

KEY

- Existing shared use path
- Proposed shared use path
- 2-way cycle track with separate footway
- New or improved crossing
