PUBLIC NOTICE

Burdock Road - tree removal & replacement

Haringey Council is planning to start public realm improvement works on Watermead Way on 25th January 2021 for 6 months. This is part of wider area regeneration plans for Tottenham Hale.

To accommodate aspect of the works, **Haringey Council will be removing six of the existing eleven trees along Burdock Road closer to the junction of Watermead Way**. The tree felling will take place in the week commencing **18th January 2021,** ahead of the start of our works.

All the trees on Burdock Road have been identified for removal through the planning process for the adjacent development sites. However, over the course of the regeneration works Haringey Council will be planting more trees than are being removed in the area.

For comments or enquiries on the above, please contact frontline.consultation@haringey.gov.uk.

More information about the plans for Tottenham Hale can be found on our dedicated regeneration website: https://th.commonplace.is/
