Our ref: Edith Road Construction Update

Dear Resident,

Re-paving around the site of the new council homes at Edith Road

As you will hopefully be aware, work to complete the 8 new council homes at Edith Road is now nearing completion. The hoarding is being removed and replaced with heras fencing, and the pavements around the site will be repaved and kerbs replaced.

The new council homes being built at Edith Road are part of Haringey Council's ambitious programme to build 3,000 new council homes by 2031. Across Haringey, more than 2,000 new high-quality council homes are already under construction.

The repaving and re-kerbing work will be carried out by Loughlin Civil Engineering, with work expected to begin within the site boundary in the next few days, and may take up to five weeks.

The work will begin with paving and kerb replacement along Edith Road, Park Road, and Tredegar Road. The paving works in front of the existing flats (on Tredegar Road) will be the last area to be worked on in approximately 3 weeks-time. This work may cause some temporary inconvenience, but the contractor will endeavour to minimise any disruption during the works.

If you have any questions or need to access this information in a different format, please do contact me.

Yours faithfully,

Barry Macleod-Cullinane
