

Caruso Park Site Overview

Caruso Park

- Caruso Park
 - The play structure at Caruso Park was scheduled for lifecycle replacement in 2022 and this project will be completed this year.
 - This project is included in our 2023 Capital Budget at \$120,000.
 - \$59,486.00 – ICIP Grant Funding
 - \$60,514 – 85% Parkland Development, 15% DC

Caruso Park Concept Description

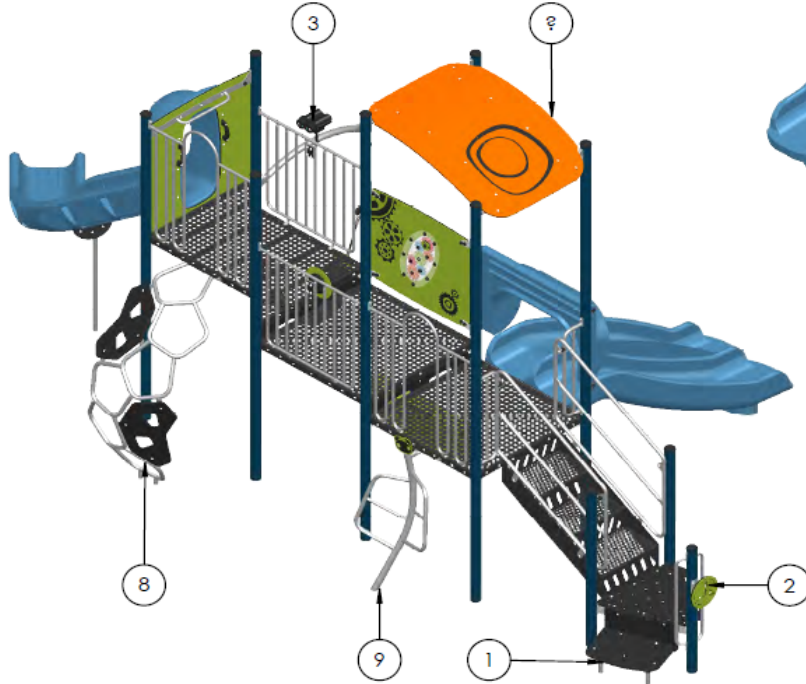

- 2023 Caruso Parks Upgrade Goal: replace the existing play structure and provide an upgraded structure including both Junior and Senior components with accessible path and seating.
- The play area will have EWF (Engineered Wood Fibre) surfacing providing an accessible surface for all users. Both concepts include a variety of play components which provides opportunities for motor, social and creative skills development.
- Note: the existing swing set will remain as is. A future pathway connection is proposed to connect to the granular pavement area when this area is to be upgraded.
