The map displays 15 numbered regions in Atlanta, Georgia, with heatmaps indicating the density of COVID-19 cases. The regions are outlined in blue and numbered in bold black text. The heatmaps use a color scale from blue (low density) to red (high density). Major roads and landmarks are labeled on the map.

Regions and Case Density:

- Region 111:** High density (red/yellow) in the north-central area.
- Region 112:** High density (red/yellow) in the north-east area.
- Region 113:** High density (red/yellow) in the east area.
- Region 114:** High density (red/yellow) in the south-east area.
- Region 121:** High density (red/yellow) in the west area.
- Region 122:** High density (red/yellow) in the west area.
- Region 123:** High density (red/yellow) in the north-west area.
- Region 124:** High density (red/yellow) in the north-west area.
- Region 131:** High density (red/yellow) in the west area.
- Region 132:** High density (red/yellow) in the west area.
- Region 133:** High density (red/yellow) in the west area.
- Region 134:** High density (red/yellow) in the south-west area.
- Region 141:** High density (red/yellow) in the south-east area.
- Region 142:** High density (red/yellow) in the south-east area.
- Region 143:** High density (red/yellow) in the south-east area.
- Region 144:** High density (red/yellow) in the south-east area.
