A4174 RING ROAD PROPOSED IMPROVEMENTS

HAMBROOK JUNCTION

These proposals include:

1. Widening of the existing shared use path to segregated 2-way cycleway and separate footway.
2. Upgrading the existing toucan crossing, separating pedestrian and cycle movements at the signalised crossing across Bristol Road.
3. Reducing the existing speed limit from 50mph to 40mph for westbound traffic to improve safety for pedestrians and cyclists.

Cross-section of westbound approach to Hambrook junction. Eastbound carriageway will remain as existing.

KEY

- 2-way cycle track with separate footway
- Existing crossing
- New or improved crossing
