A4174 RING ROAD PROPOSED IMPROVEMENTS

WICK WICK ROUNDABOUT

These proposals include:

1. A new toucan crossing over the northern side (A4174) of the roundabout, connecting the eastbound bus stop with the business park.
2. The widening of the existing shared use path on the northern side of the roundabout.
3. Relocation of the maintenance bay on the northern side of the roundabout.
4. Widening of existing shared use path, south of the carriageway to 2-way cycle track and separate footway.
5. A new westbound bus stop, with a new footway to connect the new bus stop to the existing shared use path.
6. Extension of the existing A4174 westbound 2+ Lane towards Wick Wick roundabout to connect with the new bus stop.
7. Proposed single northbound lane from Wick Wick roundabout to the M4 overbridge and two southbound lanes to the roundabout.

Illustrative cross-section of the westbound traffic lanes and proposed bus stop
