Dear Resident,

As we move through the summer, works on site have continued to progress well, with a number of further milestones achieved across the development during the past month.

Residents will have noticed that the scaffolding has now been completely removed, providing the first full view of the finished external appearance of the building. Externally, Thames Water are currently undertaking the installation of a new water main, which forms an important part of the infrastructure works required to serve the development.

Good progress continues internally, with plastering works now well underway throughout the building following the completion of the internal partitioning and first fix mechanical and electrical installations. These works represent another significant step towards the internal completion of the development.

Residents may also have noticed that we have recently undertaken works to tidy and improve the communal planting areas surrounding the site. We hope these enhancements are appreciated and help maintain a neat and welcoming environment for the local community while construction continues.

Over the coming weeks, works will continue on the internal finishes, together with the ongoing installation of building services and external infrastructure works.

Site working hours are Monday to Friday 8am to 1pm, and if required Saturday 8am to 1pm.

We would like to thank residents for their continued patience and understanding while works progress. We remain committed to keeping the community informed with regular updates as the development moves forward.

If you have any queries whatsoever regarding the works or the site, please do not hesitate to contact Vasyl. Alternatively, you can contact our Resident Liaison Officer, Nicola McCalla, on 01268 711117.

Finally, we would like to remind residents that building sites can be dangerous places. We kindly ask for your cooperation in reminding any children in your care of the dangers of playing on construction sites and the importance of keeping well away at all times.

24 Hour Emergency

In the event of an out of hours emergency or if you spot something untoward on site, please telephone 01268 436449 and you will be diverted to a team member who will be able to assist.
