Our ref: Risley Avenue / Summer Update

Dear Resident,

Update on council home development at Risley Avenue (N17)

As you will hopefully be aware, Haringey Council is building four new council homes at Risley Avenue. This is part of the borough's ambitious programme to build 3,000 new council homes by 2031. Work is already underway or been completed on more than 2,000 council homes across Haringey.

Work to complete the new homes at Risley Avenue has been progressing at a good pace, however, a new building contractor is now required to complete the final stages of the work on the site. The council has already commenced the process of identifying a new organisation to complete the works: we expect to be able to provide an update to residents in the autumn of this year.

This does mean that while the site will remain hoarded, no further construction work or activity will be taking place in the next few months. We will ensure the site is regularly checked by our team and that it is kept secure and tidy. The council will update residents before any further work takes place.
