Warmley to Longwell Green Active Travel Improvements Survey

We want to hear your views on proposed improvements to cycling, walking and wheeling (using a wheelchair, mobility scooter or pushing a buggy) access between Warmley and Longwell Green. The Warmley to Longwell Green section of the A4174 Ring Road is currently a missing link for local connectivity as a key section of the Ring Road that doesn't have high quality walking and cycling routes alongside it. This route not only connects local communities with work, schools, shops and recreation but also links into the wider travel network like the Bristol and Bath Railway Path. A review of options for improving walking and cycling connectivity in this area identified two routes as the best opportunities for improvement; a section of the existing Ring Road Path and a length of Craven Way which runs parallel to the Ring Road Path. We're now looking to make improvements on both of these routes.

Section 1: Current use of the route

We'd like to know about how or if you currently use either the route along Craven Way between Wraxall Road and Marsham Way or the Ring Road Path between Warmley High Street and Stonehill and if you have any comments or concerns about the existing facilities.

Q1 Do you currently walk, or wheel (use a wheelchair, mobility scooter or push a pram) along any stretch of the two routes?

- [ ] Yes, daily
- [ ] Yes, weekly
- [ ] Yes, less frequently
- [ ] No, I don't use these routes

Q2 Do you currently cycle along any stretch of the two routes?

- [ ] Yes, daily
- [ ] Yes, weekly
- [ ] Yes, less frequently
- [ ] No, I don't use these routes

Q3 What do you think of the current facilities and infrastructure e.g. paths, crossings, and lighting along these two routes?
