HARINGEY DRAFT LOCAL PLAN

Haringey LONDON

INCLUSIVE PLACES

Introduction to the Local Plan

What is the Local Plan?

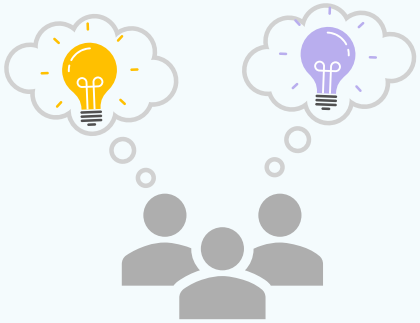

Purpose of the Local Plan

The Local Plan guides how future places are designed and built to ensure functionality and community benefit.

Focus on Wellbeing, Inclusive Access and Safety

The plan prioritises safety, accessibility and providing welcoming places for everyone. This includes protecting people from the impacts of climate change, like more hot weather and floods.

Shaped by the Community

Everyone's views are important; community feedback shapes the plan to meet diverse needs and abilities.

Why your feedback matters

Inclusive Design Importance

Your feedback will help us to ensure spaces are safe, welcoming, and accessible for all community members, including vulnerable groups.

Enhancing Safety and Comfort

We need to make sure our policies include useful and clear information about clear signage, quiet areas, and safe play spaces for comfortable community use.

Building a Sense of Belonging

The Local Plan aims to support communities so that everyone feels they belong. Sharing ideas and collaboration is an important part of this process.

Policy D3: Inclusive Design

Design for Everyone

Inclusive Design Principles

Inclusive design is about making sure that buildings and spaces accommodate all people regardless of their needs.

Safety and Crime Prevention

Good design uses safe layouts and lighting to create welcoming and secure environments.

Accessibility and Emergency Plans

Buildings should have features like safe evacuation plans for everyone during emergencies.

Inclusive Design Statement

Designers need to show how their plans meet inclusive goals, ensuring safety and dignity for all.

Policy D4: Public Realm

Better Public Spaces

Inclusive Design and Planning

Designers must carefully plan public spaces, considering how people use them, so that they are welcoming and accessible.

Better Public Spaces

Safety and Accessibility

Good lighting, safe materials, clear signage, and accessible toilets enhance safety and usability for everyone.

Better Public Spaces

Nature and Quiet Spaces

Incorporating trees, plants, water features, and quiet areas helps create relaxing environments for all visitors.

Better Public Spaces

Community Activities and Art

Spaces should support community events and display local art to encourage social interaction and celebrate cultural identity.

Feedback and Next Steps

What Do You Think?

Importance of Feedback

Community feedback is essential to ensure the Local Plan addresses everyone's needs.

Inclusive Design Benefits

Inclusive design helps create public spaces that are safe, welcoming, and accessible for all people regardless of ability.

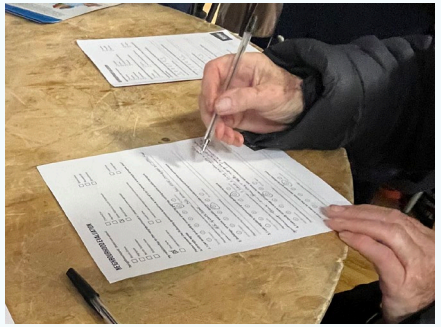

Invitation to Participate

Everyone is encouraged to share their opinions on what works, what doesn’t, and what we could improve in the Draft Local Plan.

How can you send us your feedback?

Email us

Send your email to: newlocalplan@haringey.gov.uk

Fill in a paper survey at our in-person drop-in sessions

You can find the full list of events and locations on our website here.

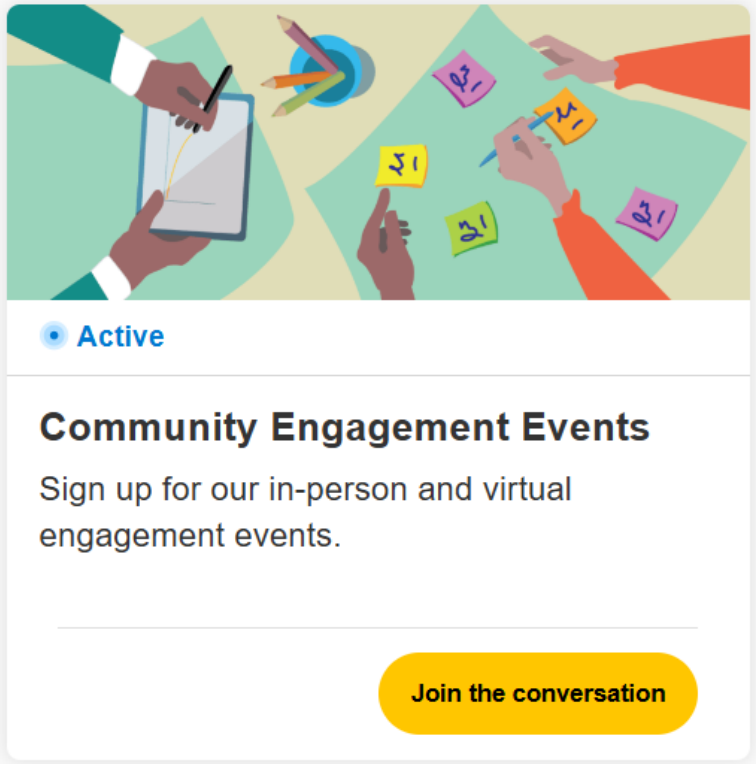

Fill in an online survey on our consultation website

You can find the homepage of our consultation website here.

Make sure to send it by Friday 19 December
