318a White Hart Lane Newsletter October 2024

Site Progress

We are pleased to have completed all the internal works to the new homes. This is a significant milestone for the project and a positive step toward meeting our anticipated completion date for the end of the year.

We have commenced with the snagging process in collaboration with Haringey Council.

Good strides have been made on the external works to the development. We have begun the installation of the hard landscaping works, as well as the boundary walls.

We hope the homes we have built serve as a positive addition to your community.

The Project

This scheme is part of Haringey Council's commitment aimed at delivering a new generation of council homes for local residents.

The development consists of 6 new high-quality council rent homes on the corner site at 318a White Hart Lane.

There will be a mix of 1, 2 and 3-bedroom homes within a 3-storey building. Each home will either have a private outdoor space, balcony or terrace and access to an attractively landscaped communal garden to the rear.

The project completion is expected to take place by the end of this year 2024.

Thank you

The project has been a success in achieving its target dates throughout the build.

As we draw closer to the end of the project, we would like to sincerely thank you all for your assistance and patience throughout the construction works, and for your continued cooperation.

We hope to continue our partnership with Haringey Council in the future to enable us to deliver high quality council homes for the local residents of Haringey.

Haringey Council

Haringey Council makes it clear to all its contractors that resident safety and wellbeing should be at the heart of their work − to which we are committed to upholding as part of our Considerate Constructors Scheme registration and membership.
