Our ref: Edith Road / 2023 Construction Update

Dear Resident,

Update on council home development on Edith Road

As you will hopefully be aware, Haringey Council has received planning permission to build eight new council rent homes at a site close to Edith Road. This is part of the borough's ambitious programme to build 3,000 new council homes by 2031. Across Haringey, more than 2,000 new high-quality council homes are already under construction.

Work to complete the new council homes at Edith Road has been progressing at a good pace. However, the contractor building the new homes has informed the council they are no longer able to complete the project on the timescale and within a budget which the council felt was acceptable. As a result, the council is now actively seeking a new contractor to complete the works.

This does mean that while the site will remain hoarded, no further construction work or activity will be taking place in the immediate future. The council will update residents before any further work takes place. We will ensure the site is regularly checked by our team and that it is kept secure and tidy.
