LONDON

Have your say on High Road West socio-economic initiatives and activities

High Road West (HRW) will be a safe and attractive neighbourhood for everyone, helping to bring improvements to the area based on what the community have told us are their priorities. Priorities like more high-quality homes, including new council homes, new jobs and employment space, and improved community facilities such as the Library and Learning Centre, as well as new and enhanced green and open spaces.

Large scale developments like HRW take time to get underway but we are not waiting for the building work to start to bring about local improvements. Your Residents Association and local partners have already started running some fantastic activities and projects.

These projects are offering the local community different ways to get involved and benefit from the opportunities the socio-economic programme will bring through HRW.

Social and economic initiatives

- Digital access hub
- Youth music sessions
- Jobs Club
- Wellbeing programme
- Fundays
- Community BBQ
- Community trips
- Coffee mornings

This is just the start and we want to work with you to deliver the activities the community want and need.

Have your say!

Following the wider masterplan engagement and needs assessment in 2021, you told us you wanted to see initiatives that focused on employment and skills, youth activity, education support, digital inclusion, and community led activity taking place.

Building on your feedback, we'd like to explore your views on any initiatives and creative ideas that support the following objectives:

- **Creating Better Prospects** – employment and skills development
- **Enabling Healthy and Safe Lives** – safety, health and wellbeing, young people focused opportunities.
- **Building Community Capacity** – helping the community to decide what will be delivered through HRW.

Please fill in the feedback card that accompanies this booklet or scan the QR code. Let's shape local opportunities for all together!

The engagement closes on **Thursday, 8 February 2024**
