

# Lee County Safety Action Plan

Striving for Safe Roads Across the Country

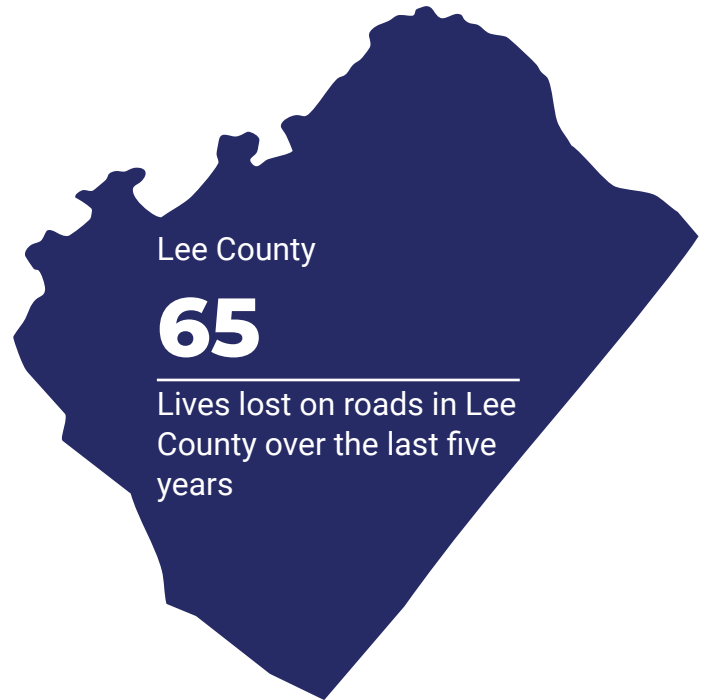

## SOMETHING NEEDS TO CHANGE.

In the past 5 years there have been over **8,600** crashes on our roadways in Lee County.

## PARADIGM SHIFT

Every year, people in Lee County lose family, friends, neighbors, and colleagues to preventable traffic crashes on our roads.

The Lee County Safety Action Plan is a paradigm shift in how the County thinks about roadway safety. It will lay out a new set of principles for engineering roads, educating travelers, and creating a sense of collective responsibility. **Lee County** and the **Central Pines Regional Council** are taking action and committing to work towards the goal of zero traffic deaths in our County.

## LEARN MORE & GET INVOLVED!

**The online survey is open!** Scan the QR code to learn more about the project and share how Lee County can make streets safe for all users and eliminate fatal and serious injury crashes.
