18th February 2026

Broadwater Farm Community Centre
Adams Road London N17 6HE

Dear Resident,

Temporary parking exemptions during external works and parking bay suspensions

We are aware that the current external major works programme, along with the UKPN cabling relocation works on the former Tangmere site, is having a significant impact on resident parking across Broadwater Farm Estate.

To help ease the parking pressures residents are experiencing, we are introducing a programme of temporary parking exemptions. These exemptions will be provided on a block-by-block basis as the works progress across the estate.

As the first blocks to be directly affected, all households in **Debden may request a FREE temporary parking exemption** for the duration of the works to your block. This exemption will allow you to park your vehicle(s) in **Bruce Grove West (BGW) zones** for a temporary period to **31st March 2026**.

How to request your temporary parking exemption
If you would like to register for this temporary exemption, please complete the enclosed form providing your registration details for all vehicles in your household that require this exemption and return it to the concierge at **CROYDON** or email it to bwf@haringey.gov.uk as soon as possible to ensure you receive the full benefits of this temporary exemption.

Please note if you do not return your completed form providing all your car registration details you will not be registered and therefore won't be included in this temporary exemption.

Once registered, you will receive confirmation from Haringey's parking service that your vehicle(s) has been added to the exemption list – **please do not park in the specified parking zones until you have received this confirmation.**

During the specified dates, you will not need a physical permit to park in the relevant zone. The Parking team will update their internal system, so your exemption is automatically recognised on handheld devices used for parking enforcement.

As an additional temporary measure, any vehicle registered under this exemption will also be able to travel through the Low Traffic Neighbourhood (LTN) filter at Gloucester Road. This is a temporary LTN exemption – any permanent arrangements regarding LTN exemptions will be communicated separately in the future.

Please ensure you take careful note of the zones and dates covered by this exemption. Parking outside the specified locations or time period may result in a Penalty Charge Notice (PCN), which the Council will not be able to cancel.

If you have any questions or require further assistance, please do not hesitate to contact us at bwf@haringey.gov.uk

Yours faithfully
Broadwater Farm Project team
