1 Queens Park Family Hub

Introduction

Westminster City Council is seeking to transform the site of the former St Marylebone Bridge School into a high-quality Family Hub for Queens Park to meet identified need for family and community services in the local area. The proposal intends to deliver and promote healthy living, community, and sustainability in a high-quality and purpose-designed building, re-locating services from Bravington Road.

This public exhibition outlines our vision for the new family hub. The purpose of this exhibition is to:

- Present the vision and initial plans for proposed building and garden.
- Hear your views, ideas and suggestions.

What is a Family Hub?

- Family Hubs are a new way of bringing together all the support you may need as a family, from pregnancy through to young people turning 19 (or 25 if they have a disability).
- A Family Hub is a place where families, young people, and children can get support and guidance. Family hubs are a collaboration between local services, such as the NHS, community organisations, and the Council.
- Family Hubs create the opportunity for a higher level of integration in relevant services for children and families.
- There is at least one children's centre in each of the Family Hubs with activities for very young children and a wide range of support for families with children of older ages.
