THE LEE COUNTY SAFETY ACTION PLAN WILL...

- Create a High Injury Network to address places where serious crashes have happened most frequently in the past.
- Identify places where crashes are most likely to happen in the future.
- Adopt actions and strategies that will systematically reduce the likelihood of serious crashes happening in the future.

THE SAFE SYSTEM APPROACH

This Plan uses the Safe System Approach -- a new way to tackle traffic safety issues.

Share your thoughts on how Lee County can eliminate fatal and severe injuries on your roadways and achieve **VISION ZERO!**

WHAT WOULD YOU BE WILLING TO DO TO MAKE ROADS SAFER IN YOUR COMMUNITY AND ACROSS THE COUNTY?

Use the dots for the items you select or use a marker to add other ideas. Select all that apply to you.

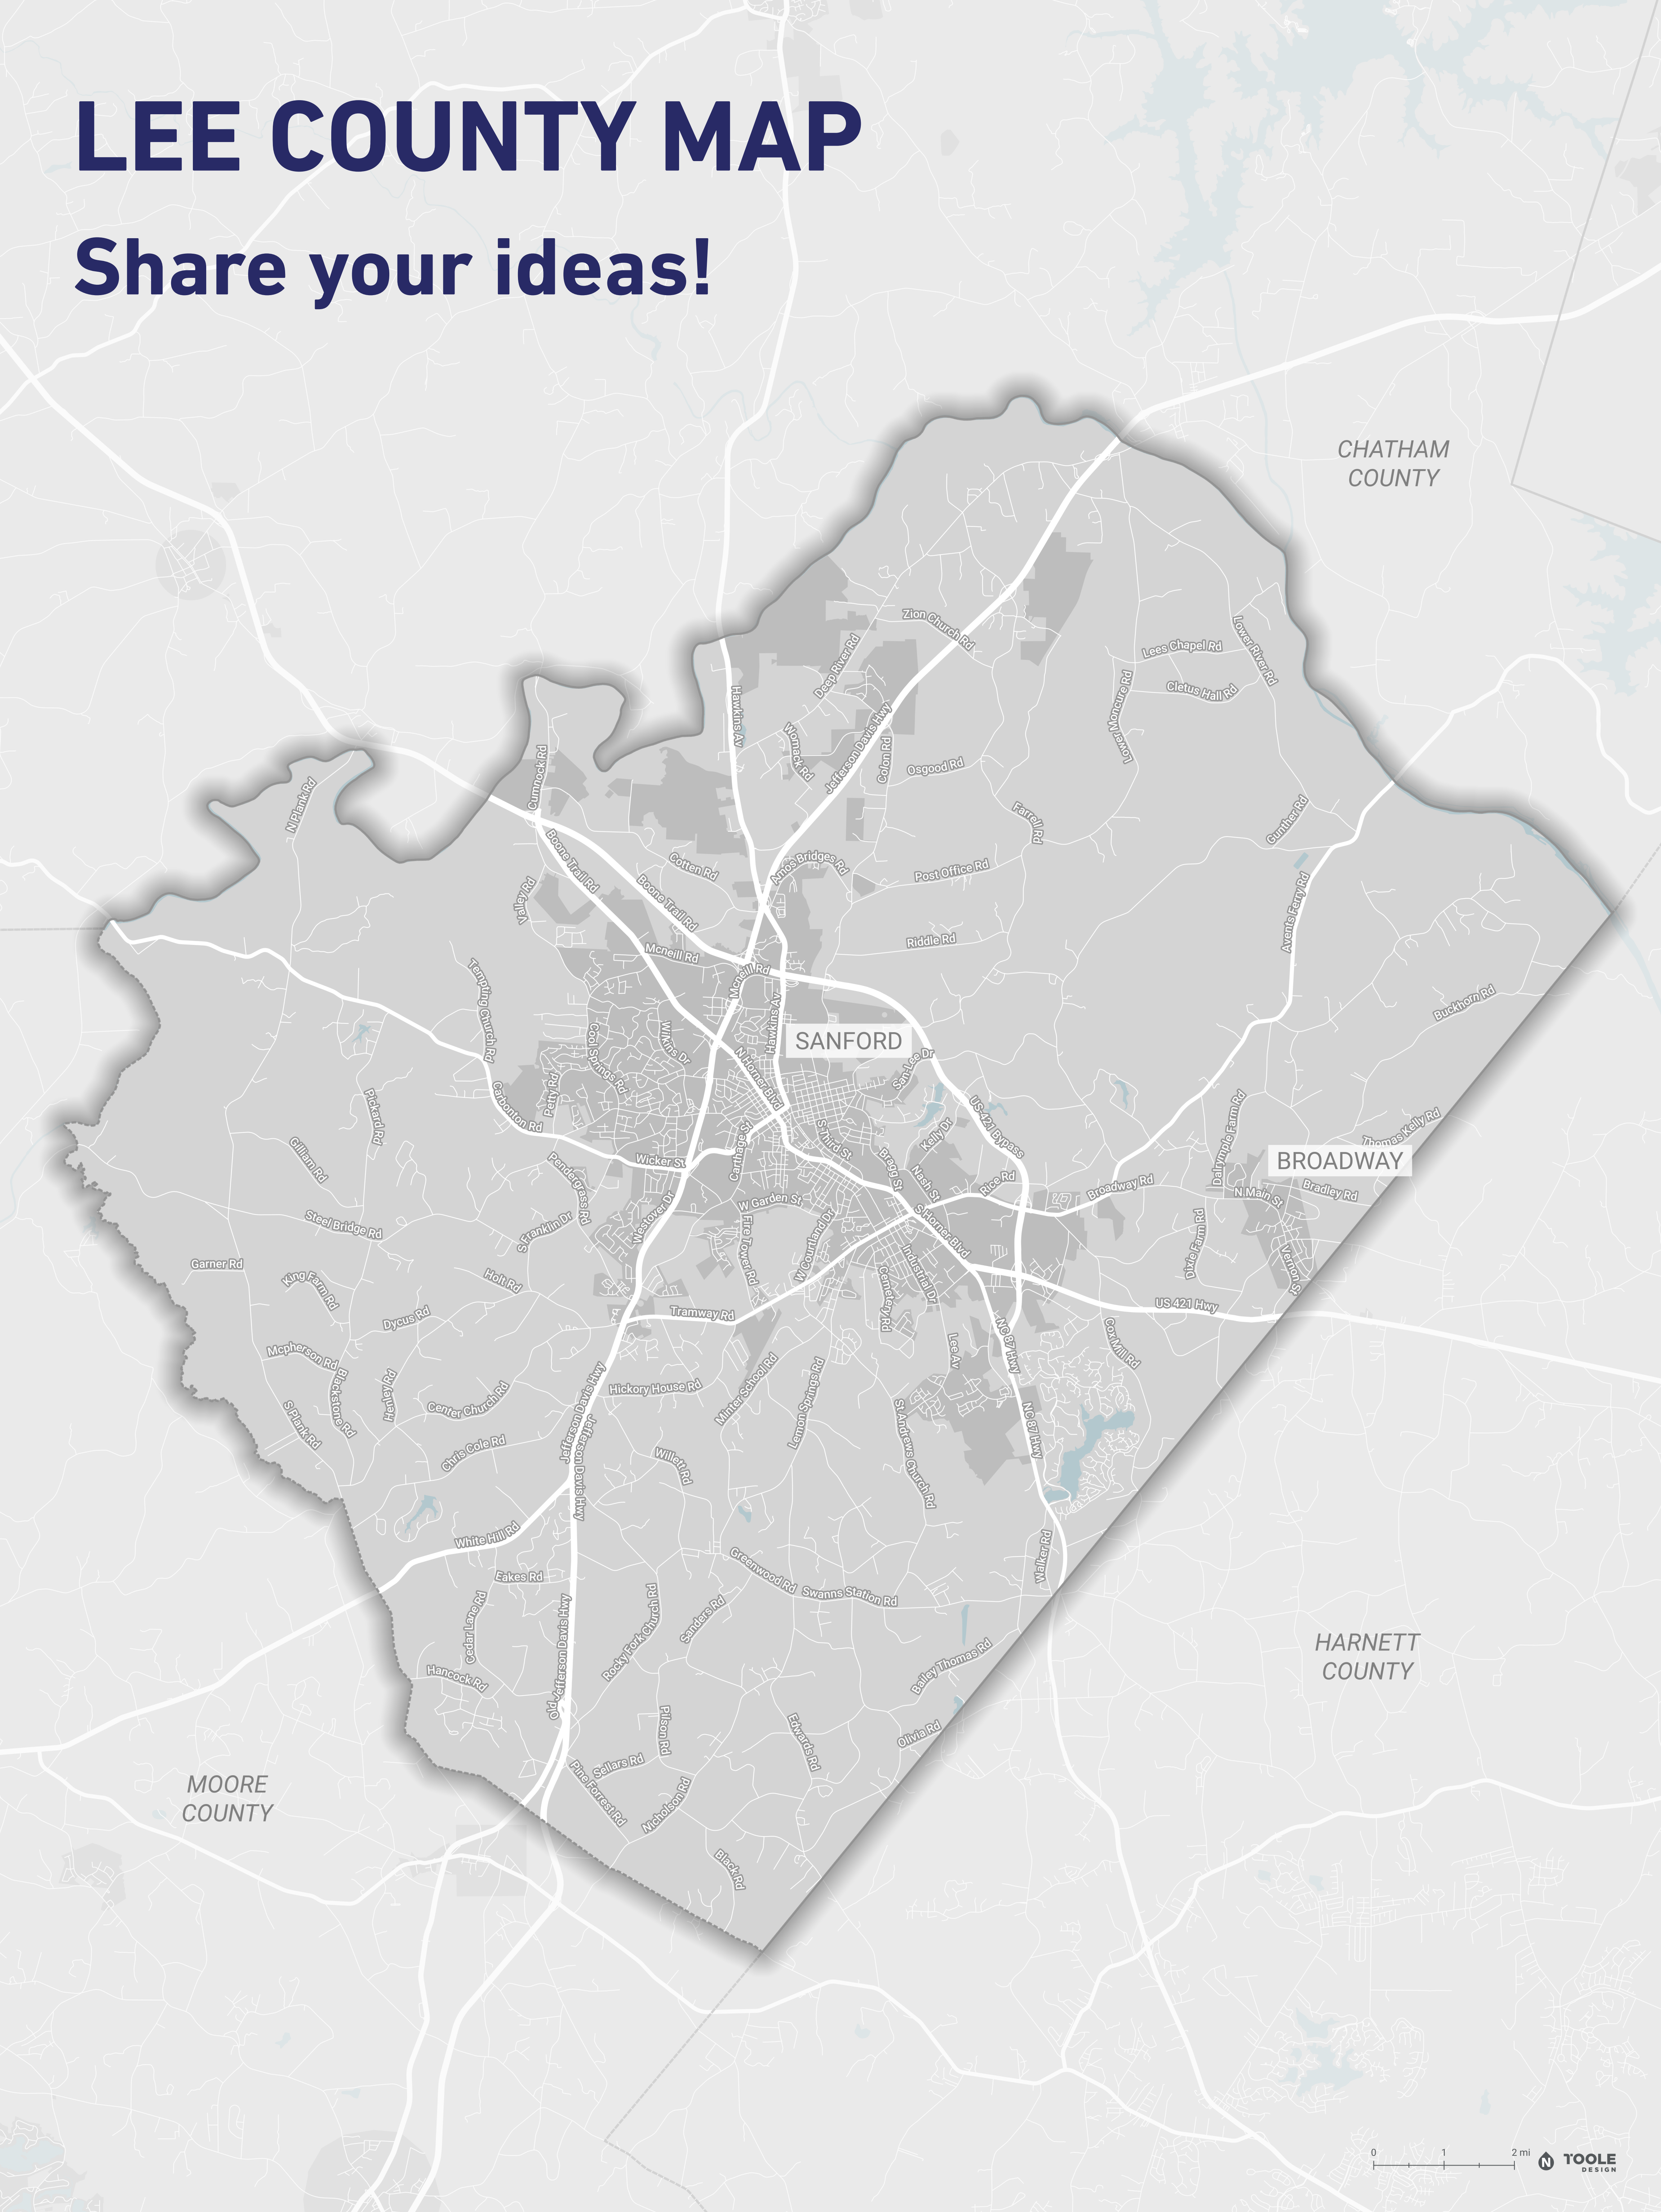

Leave earlier for my destination to make sure I do not have to drive over the speed limit	
Avoid distractions if I drive such as texting	
Walk, bicycle, or ride transit when my trip is short (1-3 miles)	
Communicate the importance of transportation safety to family, friends, neighbors, and other people I know	
Write in other things you can do to make transportation safer
