1 LEYTONSTONE 15-MINUTE TOWN CENTRE FRAMEWORK

Phase 2 Engagement

Purpose of the Town Centre Framework

The purpose of the Leytonstone Town Centre Area Framework is to help coordinate future development and better direct future funding.

The framework will help us to realise the benefits of planned growth for local people by guiding and directing investment into identified resident priorities and projects. This might include new play space and open space improvements, climate adaptation initiatives, health facilities, community spaces and social infrastructure.

Public Engagement

The first phase of public engagement on the Leytonstone Area Framework was in November 2021, and included information and an opportunity to feedback on Site Allocations proposed for Leytonstone Town Centre. A further round of consultation specifically focussed on the Borough's Site Allocations is proposed for Autumn 2023.

The feedback received in phase one of the Leytonstone Town Centre Area Framework has been used to create these engagement boards, which lists priorities, possible projects and initiatives that could be delivered in Leytonstone in the future.

We need your help to let us know what is a priority and if there is anything we have missed.

The Framework Area

LEGEND

- Leytonstone Town Centre Framework Boundary
- Other Framework Areas
- Local Plan Strategic Locations
- Local Plan (LP2) Draft Site Allocations
  - 1 Tesco and adjoining sites
