Our ref: Bin Relocation update

Dear Resident,

Update on relocation of bins in Turner Avenue estate

As you may be aware, following the closure of the two car parking areas at Turners Avenue, Selsdon Building Contractors Limited (SBC) have relocated the bins which serve the residents living at Turner Avenue. We would like to apologise for the lack of adequate notice regarding the changes to the bin arrangements and any confusion this may have caused.

The reason for the relocation of the bins at Turner Avenue is to allow for the construction of the 45 new council homes at Brunel Walk, which is expected to be completed during the summer of 2026. The area where the bins were located is now used for access to the site and as a storage area for building materials.

The bins will remain in the new location (outlined in image below) for the foreseeable future. However, upcoming site-wide landscaping improvements—designed to benefit existing residents—may necessitate a further relocation.

See image below for a map of the temporary location of the bins:

The bins were relocated on 16 April 2025; SBC operatives have been moving the Recycling bins every Monday and the General waste bins every Thursday to an agreed pick-up point for Veolia to collect; this arrangement will remain in place for the foreseeable future and we will update you if they need to be relocated again.

For more information on the new homes being constructed along Brunel Walk and to sign up to updates on the project please follow the link below to the council's web hub for the project.
