Project Description

The construction of the Resurfacing Siesta Key is part of a County-wide roadway resurfacing program, as provided for in the Roadway Resurfacing Program. The project includes milling and paving, pavement stripping, Americans with Disabilities Act (ADA) ramp modifications, curb repairs, roadway base repairs, and school zone sign improvements.

Project Progress/Status

Paving Operation will start at the end of June, 2024. Until paving operation starts, the contractor will work on preparation work, such as concrete sidewalks, curbing, clearing and grabbing, etc. Drivers are asked to use extreme caution while driving through the work area.
