- I like the Native American on the logo. It reminds me we were not the only people to have settled in the area.

- Waste of time & money to create a new logo. The current logo reflects the Native American past for this geographic area - the origin story for our town - which still deserves to be honored. The town has a Native American name. And one of the most famous residents from this area was James Fenimore Cooper who wrote "The Last of the Mohigans." The author's name and the book title are also reflected in street names. Perhaps the English teachers at Hommocks and MHS should consider assigning this book as required reading. But there is no compelling reason to create a new hodge-podge, crazy-quilt logo in an attempt to produce an all-inclusive image that tries to represent each ethnic group that currently lives in our town.

- Why do you want to change History? The town bought the land from the Natives and that is what is built on. We are not hurting anyone's feelings by having this as our logo. Stand proud for who we are and stop trying to change things. If the Natives didn't like it back then it wouldn't have been used.

18 days ago

- Logos do not change anything. This is performative work to appease very white far left people who are wasting taxpayers resources on endeavors that leads to no improvements in our every day life. I am an immigrant, minority & not white. This stuff reminds me on third world corrupt politician who do lip service & zero improvement on how our tax dollars are spent. We have a huge tax burden & logos is what we are discussing, it is very upsetting

18 days ago

Positive

- As we approach our 250th anniversary as a nation,we should vigilantlyhonor our past and not seek to topple statues, invent new flags, or otherwise seek to erase our rich and vibrant history. This is very clearly such an attempt. The town lacks inspectors to complete the most basic tasks that enable businesses to open in a timely fashion, homeowners to complete renovations, and developers to create new residences. We spent too much money on multiple police departments and redundant administrators across three separate bureaucracies. It is so incredibly wasteful. You have a choice. Continue to raise real estate taxes and suppress the growth of retail Enterprises that would support the tax base and continue to make life less and less affordable for community residents or be bold and seek to consolidate functions and services while making them actually operate well. Focusing on a logo is laughable. It is so out of touch with the communities true needs and affordability concerns

- Not worth tax dollar time or money to even think about this. Let’s spend resources on fields, drainage etc!

18 days ago

Negative

- Why change the original logo? The name Mamaroneck comes from the Native tribe from whom European settlers purchased the land that is now our town. Changing the logo or the name would be erasing a part of our history, and I don't think thats the right approach.

18 days ago

Negative

- Mamaroneck is a Native American word. It’s not derogatory. Also- why $250k for this?! Couldn’t someone draw a new logo and as you print or update digital and print materials, you update? You don’t need to put up all new town signs. I’ve literally never heard one resident issue concern with this.

  18 days ago

  Negative

- I'd rather the Town focus energy and effort on quality of life issues. Trim hedges along our sidewalks. Improve traffic enforcement at our intersections. Encourage businesses to locate in the Town. Improve our parks and shared facilities. The Town logo is a vanity project that will result in a lot of required follow-up spending (updated website, re-printing of stationary, new uniforms, signage updates...) that can be be avoided.

18 days ago

Positive

- I grew up with the current logo and I am a bit of a traditionalist. It is in no way inherently disrespectful to native people. If we remove their image from everything they will be "disappeared" and (for most people) will only exist in textbooks.

- The current logo properly reflects the history of our community, before it was "our" community; there is no good reason to change it. If this is a marketing idea, well, couldn't we come up with a better idea than this? what is the purpose? why is our government wasting time and money on this with so many critical issues in our community? Climate change, racism, aggressive politics. I just do not get it. This seems like a public relations idea that is a distraction from the real issues facing us. I know that Westchester County is launching a "rebranding" campaign. I do not see anything but wasted money and a rejection of the honor paid to Native Americans if the Town logo is changed. The Native Americans were a huge part of the early history of the geographical area in which we live. Why should we dishonor them? Do we change the Town logo just because some other city or town is doing it?

  18 days ago

In fact, I'd love to see more honoring of the Native American heritage of this area. To replace it with some colorful meaningless soulless logo would remove the historical feel that this current logo has. How about we use resources to set up an area or exhibit at Harbor Island honoring the native Lenape people?

What's happening in our schools, with the Hommocks facility, why wasn't there more information more readily available about the construction project at Memorial Park, what's the latest on the Larchmont Mamaroneck sanitation budget? There's hardly any shade at any of the parks anymore and we need to keep children and their caregivers safe this summer. The town has made improvements for pedestrian safety but there's still not enough done - people speed through this town, blow through stop signs, and endanger children. I routinely see drivers of all ages ignore or roll the stop sign on Murray and Maple Hill.

- Oddly worded questionnaire: "Does the logo reflect Mamaroneck today? That seems to suggest a point of view. The logo obviously reflects Mamaroneck's history and seems to me to recognize and honor that history. Have people indicated offense due to the Native American image? I guess if Native American people are genuinely offended, we should change it, but if it's just us liberal white folks thinking people should be offended, I would think that actually seems a little patronizing and offensive itself.

  18 days ago

  Positive

- It honors those who preceded us. I grew up near the Pima and Yavapai Indian reservations in Arizona, and I still subscribe to the weekly Navajo Times. Nobody there would find the emblem offensive. If anyone is telling you that having an Indian on the emblem is offensive, you should ask them exactly how much they know first-hand about Indian cultures. Removing an Indian from the emblem is like trying to erase the memory that Indians once lived here.

- Mamaroneck is named after the indigenous people who settled the area and the current logo represents that. I have major concerns with this - the cost of $250k is outrageous. There are far more important items that the town should be focused on. Flooding, air conditioning the schools, paving roads. This is gone deaf to how much we pay in taxes for something this frivolous. We face high inflation and ever increasing taxes being levied on residents. Whoever thought of this should be fired. Absolutely outrageous. Focus more on lowering taxes!

I see it as a respectful acknowledgement that they were here before European settlors.

  18 days ago

  Mixed

- It's a non-exploitive representation of a Native American that accurately reflects the pre-colonial origin of this settlement. I find it respectful in terms of paying homage to the Siwanoy people. At least in my opinion, having spent a lot of time in the American Southwest and in Washington DC, it's nothing like what some businesses or sports teams have (and in some cases still do) display.

- I’ve lived in the town of Mamaroneck since I was a child and purchased my own home to raise another generation. The name Mamaroneck comes from Native American word meaning where freshwater meets saltwater… currently I have children in the Mamaroneck school system. Although there is New York State social studies curriculum, which covers some Native Americans but there are no local topics covered anymore. - No reason to change unless there are political motivations!!!! You dishonor the Mamaroneck Tribe for which our town is named after. And Larchmont is named after the Larch Tree which is the only evergreen to lose its needles every year only to have their needles come back every Spring…..Both occupied these lands long before there were McMansions and BMW's in their driveways…..

- The logo honors the ancient tribes who lived there 200+ years ago. Why change that? And budget would be better spent on roads maintenance.

- This logo is the history of the town of Mamaroneck. Removing our logo would be trying to erase and hide our history that the residence are proud of. It would also cost an enormous amount of money to taxpayers if we were to change this overall this switch feels unnecessary and unwarranted.

- The logo doesn't reflect the town today because it's a historic logo. It's supposed to represent our history. There's no need for a new logo

- Why are we trying to replace our historical identity? We were a Mohawk area. Our name is a Native American name. It accurately embraces that history.

- Why change it?

18 days ago

- I believe the current logo should remain because it represents the Town’s history and long-standing identity. It has been part of the community for generations and is recognized by residents as a symbol of the town. If changes to long established symbols are being considered, they should be based on broad community consensus and clear evidence that a change is necessary.

- The logo pays tribute to the Siwanoy natives who originally settled the area. Erasing that tribute would be a mistake.

18 days ago

Neutral

- The current logo is nice. Why would we change it? It is completely unnecessary, and it would be expensive to replace everything when we could use that money for something better. If you want to waste money then do something like donate it to an animal shelter. Not everything needs to be updated and new. It's nice to have a bit of history and this is an old town. Let the logo stay and reflect that. Sometimes it's better to reject modernity, and embrace tradition.

- The Native American depicted represents the founding of the Town of Mamaroneck, and a historical connection of which we all should be proud. It represents courage, wisdom and integrity.James Fenimore Cooper must be spinning in his grave over the attempt to eradicate Native Americans from our local history. What's next, changing the names of the Town and Village ? How about Manhattan? Thinking of changing that too?Enough of this nonsense.

- First, it's a waste of money to find a new logo. Focus on making crosswalks safer or mitigating climate change. That said, I recognize that some say the logo is offensive, but I do not find it offensive. To me, it is a representation of the Indigenous community here before settlers and I like that connection to our local history. If it were a white European settler shown in the same manner would it be deemed offensive? I doubt it.
